

For The Home Builder

Protect the contents of your buildings—add to their appearance—increase their value by using

FLEX-A-TILE Asphalt Shingles

They are easily and quickly laid—absolutely weatherproof—and highly fire resisting.

They are as durable as slate and less expensive—cheaper than stained wood shingles, yet more attractive and durable.

Flex-A-Tile Shingles are made of solid asphalt, into the surface of which has been rolled, under heavy pressure, chipped slate or granite.

The natural colors of the slate or granite, deep red, greenish gray or brown, will not wash out or fade; time and weather only tends to soften the color.

Samples and literature are awaiting your request.

The Heppes Company, Chicago, Ill.

Guaranteed twelve years. We use them on our buildings.

A Check Every Month—For Life

When you take a trip for a few weeks or months, do you not always leave ample provision for those at home during your absence? What in the event of your being called away on that long journey—what then of them? Will the little ones come home from school some day to learn that their play days are over?

Will your widow—educated to an income—be compelled to face a cold, unsympathetic world, the pawn of necessity—a world in which it is a struggle for even the strong to succeed as breadwinners?

Will the cozy home you have maintained for them be forever closed? OR

Will they be forever shielded from strife, misery and want by the fruits of your industry and forethought—

Construction Work Continues Unabated

CONSTRUCTION work continues unabated in El Paso. Plans are being prepared and work will start shortly on a two-story brick building fronting 45 feet on South Stanton street, between Overland and First streets. The property was recently bought by A. P. Coles for \$18,500.

H. R. McClintock is having a \$10,000 dwelling built in Manhattan Heights. Several smaller priced houses are also being built in Manhattan Heights and in various parts of the city bungalows are going up.

Good progress is being made in the construction of the foundations for the new \$700,000 courthouse, and work has started on the second contract for the completion of the \$500,000 high school. Good progress is being made on the construction of the addition to the Alta Vista school, to cost \$62,000, and work is progressing on the two district schools in Grand View and Lincoln park additions.

The \$100,000 bank building of the Commercial National bank will shortly be occupied, and the \$72,000 Lanier building on Stanton street is approaching completion. Work has started on the new Rolston hospital at Montana and Piedras streets, to cost \$50,000, and upon a \$19,000 warehouse for J. Y. Baskin & company on Canal street.

GAS APPLIANCES

need attention just like any other machine—they must be kept in working condition to get the best results. When your automobile does not give the power it should you do not blame the gasoline, you look for carburetor trouble. When your furnace does not heat up you do not blame the coal, you look for stoppage in the flues or regulate the drafts. When a servant does not do its work properly you do not blame the food it eats, you look for some other cause. Just so when your gas appliances do not work just right; don't blame the gas, look for the trouble and if you can't find it send for us.
